

Product: Alipax D60

Technical Data Sheet

Property	Unit	Specification	Test Method
Appearance		Bright and Clear	Visual
Aromatics	Wt%	Max 0.1	bn
Saybolt Color		Min 30	ASTM D156
Distillation (760mmHg) -IBP -DP	°C	Min 177 Max 220	ASTM D86
Total Sulfur	ppm	Max 1	ASTM D5453
Flash Point	°C	Min 62	ASTM D93
Density (15°C)	kg/L	As reported	ASTM D4052

Description

Alipax D60 is produced from petroleum-based raw materials which are treated with hydrogen in the presence of a catalyst to produce a low odour, low aromatic hydrocarbon solvent. The major components include normal paraffins, isoparaffins, and cycloparaffins.

Applications

Exxsol™ D60 Fluid is a solvent used in industrial and professional applications such as manufacturing process solvent, metal working and coatings. This product may be an ingredient including Metal working solvents as well as Architectural, construction and traffic marking coatings.

It also used as parts washing solvent, pre-cleaning solvent and degreasing where a water rinse is not applicable.
